

Ian Pamerleau | Postdoctoral Researcher

Contact Information

Cornell University
Earth and Atmospheric Sciences
112 Hollister Drive, Ithaca, NY 14850

724-594-6975
ianfpamerleau@cornell.edu
<https://ianpamerleau.github.io/>

Research Interests

Geophysics, Numerical Modeling, Fluid Flow, Topographic Analysis, Icy Worlds

Education

2021–2026	PhD	Purdue University, Planetary Science Advisor: Michael Sori
2021	BS	University of Pittsburgh, Mathematics
2021	BS	University of Pittsburgh, Geology

Professional Experience

2026–Present	Postdoctoral Researcher, Cornell University
2025	NASA JPL Planetary Science Summer School: TIDES Team
2021–2026	Graduate Research Assistant, Purdue University
2019–2021	Research Assistant, University of Pittsburgh (Advisor: Eitan Shelef)
2019	Research Assistant, University of Pittsburgh (Advisor: Ming Chen)

Awards & Honors

2026	Purdue EAPS Department Outstanding Graduate Student Award
2025	Pellas-Ryder Award
2025	Darrell Leap Hyrdogeology Purdue Graduate Research Award
2024	Purdue Graduate Student EXPO Award: Outstanding Poster
2022	NSF Graduate Research Fellowship Program Honorable Mention
2022	Purdue Donald W. Levandowski Memorial Scholarship in Geology
2021–2025	Purdue Ross Fellowship
2021	University of Pittsburgh Flint Memorial Field Geology Award
2020	University of Pittsburgh Brackenridge Research Fellowship
2020	University of Pittsburgh Samuel B. Frazier Student Resources Fund
2019	NASA Pennsylvania Space Grant Consortium Scholarship

Teaching Experience

2025	Teaching Assistant, Purdue University EAPS 309, Computer-Aided Analysis for Geosciences
2025	Teaching Assistant, Purdue University EAPS 111, Physical Geology Lab
2024	Teaching Assistant & Guest Lecturer, Purdue University, EAPS 556, Planetary Surface Processes
2024	Teaching Assistant, Purdue University, EAPS 507, Introduction to Analysis and Computing with Geoscience Data
2023	Guest Lecturer, Purdue University, EAPS 354, Earth and Planetary Geophysics
2020	Math Assistance Center Tutor, University of Pittsburgh, General University Level Math Including Calculus and Analysis

Field Work Experience

2024	Mars Desert Research Station, Crew 305, Executive Officer, Crew Geologist
2022	Field Training and Research Program at Meteor Crater
2021	Southern Utah University, GEO4960-30Y, Geology Field Camp (Online)

Leadership Experience

2024–2026	Purdue EAPS Graduate Student Association, President
2023–2024	Purdue EAPS Graduate Student Association, Treasurer
2021–2022	Purdue EAPS Graduate Student Association, Secretary
2020–2021	University of Pittsburgh Society of Physics Students, President
2018–2020	University of Pittsburgh Society of Physics Students, Treasurer
2018–2021	University of Pittsburgh Jazz Ensemble, President
2018–2019	University of Pittsburgh Fencing Team, President

Service

2026	Lead on AGU Workshop: Finite Element Method Modeling of Geophysical Processes for Earth and Planetary Science
2025–2026	Planetary Science Journal Reviewer
2023	Icarus Reviewer
2022–2023	Purdue EAPS Planetary Colloquium Coordinator

Publications

Skills

COMSOL Multiphysics (Finite Element Software)
JMARS & QGIS (GIS Softwares)
MATLAB (Topotoolbox, Mapping Toolbox) & Python
